

MICROSOFT AZURE AI FUNDAMENTALS

30-35 HOURS > INSTRUCTOR-LED TRAINING > INTERMEDIATE > ENGLISH/URDU

Course Overview

This course introduces the fundamental concepts of Artificial Intelligence (AI) and Microsoft Azure AI services. Participants will learn core AI workloads, including machine learning, computer vision, natural language processing, generative AI, and intelligent agents. The course teaches how to use Azure AI services to build, deploy, and integrate AI-powered applications and agents, while providing hands-on experience with Microsoft Learn labs. It also prepares learners for the Microsoft Azure AI Fundamentals (AI-901) certification and serves as a foundation for advanced Azure AI learning paths.

Job role

AI Engineer, Developer

Audience Prerequisites

- Prerequisite certification is not required before taking this course. Successful AI-901 students start with some basic awareness of computing and internet concepts, and some basic knowledge of programming concepts and syntax. Specifically:
- Experience using computers and the internet.
- Familiarity with programming concepts and syntax (preferably Python).
- Interest in use cases for AI applications agents.
- A willingness to learn through hands-on exploration

EXAM CODE
Ai-901

DURATION
35-40 Hours

MODE OF DELIVERY
Blended Learning

COURSE OUTLINE

NO.	Module Name	INSTRUCTOR LEAD (In-person/ online)	Labs Session (Active / Passive)	Pre-recorded Videos / Case study	Wizard training / Reading material
1	Get started with AI	2 hours	45 mins	12 min	1 hour 36 mins
2	Get started with generative AI and agents	1 hour	50 mins	12 min	1 hour 35 mins
3	Get started with text analysis	1 hour	35 mins	12 min	1 hour 15 mins
4	Get started with AI speech	1 hour	40 mins	12 min	1 hour 15 mins
5	Get started with computer vision	1 hour	45 mins	12 min	1 hour 24 mins
6	Get started with information extraction	1 hour	40 mins	12 min	1 hour 11 mins
