

EC-COUNCIL CERTIFIED ETHICAL HACKER CEHV13 (312-50 V13)

36 HOURS > INSTRUCTOR-LED TRAINING > INTERMEDIATE > ENGLISH/URDU

Course Overview

The Certified Ethical Hacker (CEH 312-50) course is a great next step for anyone who wants to understand how attackers target networks, what tools attackers use, and how these techniques can be used by ethical hackers. Topics include the basic concepts related to ethical hacking, reconnaissance techniques, system hacking phases and attack techniques, network and perimeter hacking, web application hacking, wireless network hacking, and mobile platforms, IoT, and OT hacking.

The goal of this course is to provide you with all the tools you need to prepare for the Certified Ethical Hacker exam including extensive prep tools such as quizzes, foundation topics, exam preparation tasks, exercises, and review questions to increase your chances of passing the exam on your first try.

Job role

- Ethical Hacker / Penetration Tester / Cybersecurity Analyst
